The charters set forth the purposes, goals and responsibilities of the committees as well as qualifications for committee membership, procedures for committee member appointment and removal, committee structure and operations and committee reporting to the Board.

It is the Board's policy that committees of the Board should:

- be entitled to obtain independent professional or other advice at the cost of Opthea, unless the Board determines otherwise;

7. Director access to officers and employees

Directors have full and free access to officers and employees of Opthea. Any meetings or contacts that a Director wishes to initiate may be arranged through the CEO or the Company Secretary or directly by the Director. The Directors will use their judgement to ensure that any such contact is not disruptive to the business operations of Opthea and will, to the extent not inappropriate, copy the CEO on any written communications between a Director and an officer or employee of Opthea.

8. Director's access to independent professional advice

For the purposes of proper performance of their duties, Directors are entitled to seek independent professional advice on corporate matters at Opthea's expense, unless the Board determines otherwise. In addition, each Director will be a party to a deed with Opthea whereby Opthea has agreed to indemnify its Director's against certain liabilities, to maintain Directors and Officers Insurance coverage for its Director's and to provide access to its Directors to Opthea's documents and information. The deeds are on terms similar to those adopted by other public listed companies.

It is the Nomination and Governance Committee and Board's policy to determine the terms and conditions relating to the appointment and retirement of Non-Executive Directors on a case-by-case basis and in conformity with requirements of the Nasdaq/SEC, ASX Listing Rules and the Corporations Act.

Appointment and retirement of Directors will be in accordance with the following:

- The Board will consider from time-to-time changes that the Board believes to be desirable to the size of the Board or any committee thereof.
- Where a board vacancy exists (including a vacancy created by an increase in size of the Board), the Board will identify individuals believed to be qualified to become Board members to stand for election as Directors at the Annual General Meeting of shareholders. In nominating candidates, the Board shall take into consideration the qualifications of the candidate and the characteristics of the candidate as described in section 3. These factors may include judgement, skill, diversity, experience with businesses and other organisations of comparable size, the interplay of the candidate's experience with the experience of other Board members, and the extent to which the candidate would be a desirable addition to the Board and any committees of the Board. The Board may consider candidates proposed by management but is not required to do so.

Where a vacancy exists on any Board Committee, the Board will appoint a Director to that committee taking into consideration the factors set forth in the charter of the committee, if any, as well as any other factors it deems appropriate, including, without limitation, applicable legislative requirements, the consistency of the candidate's experience with the goals of the committee and the interplay of the candidate's experience with the experience of other committee members.

The Board is responsible for ensuring that an effective induction process is in place for new Directors appointed to the Board.

The Board is also responsible for developing a succession plan for Board members, including the succession of the Chairman, to maintain an appropriate mix of skills, experience, expertise and diversity on the Board.

10. Board skills

The Company believes that the capabilities required of its directors must reflect its purpose and the strategies necessary to achieve that purpose.
